

MTSS Process Rollout

Big Sky Discovery Academy

Big Sky, Montana

How Wayfinder was implemented

Big Sky Discovery Academy implemented Wayfinder to help achieve their mission of providing individualized educational opportunities that enrich the whole child. Their Guidance Counselor led the whole-school rollout to use Wayfinder to support their MTSS process. Students fill out summative + formative assessments so educators can measure skill growth overtime and track intervention effectiveness. The Guidance Counselor uses this data to select relevant lessons + activities from Collections and the Activity Library for targeted skill-building.

Tier 1

Universal supports

Guidance Counselor teaches weekly lessons to Intermediate School using Executive Functioning Collection

Tier 2

Small group intervention

Guidance Counselor selects relevant activities + Collections to conduct small group sessions and lunch bunches

Tier 3

1-on-1 intervention

Students complete formative assessment and select independent practice activities to support future-ready skill growth

Implementation year

"Wayfinder is relatable and engaging for our students at all ages... When I walk into a room, students often ask, 'Are we doing Wayfinder now?'" They are excited about these lessons!"

Maeve Clinton, MSW
Guidance Counselor
