

# Build Future Readiness With Wayfinder

With Wayfinder, you can add action-oriented purpose development to traditional character education to ensure that students graduate ready to thrive in their personal and professional futures.

## Teach Skills That Stand the Test of Time

The World Economic Forum estimates that nearly 70% of jobs students will have after graduating don't exist yet. Many jobs may also disappear as automation transforms workplaces, but students with purpose are well-positioned to navigate uncertain futures.

A recent study found that 84% of companies expect candidates to demonstrate emotional intelligence. A McKinsey Institute survey of hundreds of multinational companies confirms the skills employers seek:

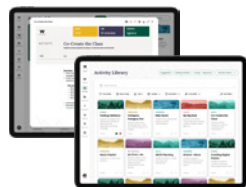

- Strong listening + communication
- Emotional safety
- Willingness to support colleagues
- Fairness + empathy
- Critical thinking + problem-solving
- Generosity
- Ability to gain insights into others
- Ability to make connections across complex ideas
- Professional + interpersonal curiosity
- Coaching skills

## Wayfinder has the tools to help you teach them

Now

## Help Students Build Foundational Competencies and Practical Skills

### Foundational Competencies

#### Self-Awareness

You understand yourself on many levels, from how you function to what nourishes and sustains you.

#### Collaboration

You are a relationship-builder who actively partners with others and facilitates belonging efforts across communities.

#### Empathy

You are in tune with the feelings and needs of others and willing to act for a common good.

### + Future-Ready Skills

#### Adaptability

You are willing to try again when you make mistakes and are comfortable navigating uncertain situations with flexibility and openness.

#### Agency

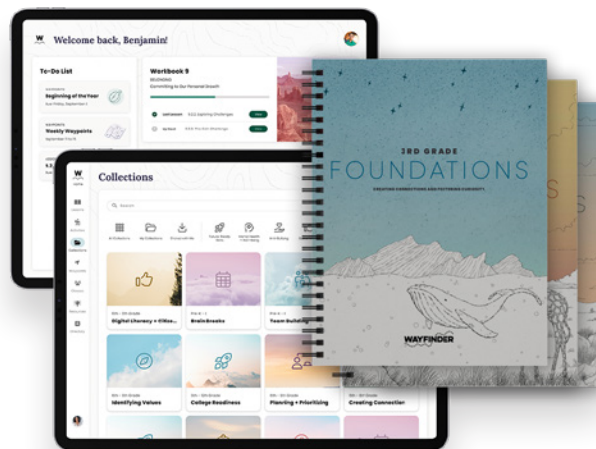

You understand the value of your voice and seek opportunities to support and advance your communities.

#### Purpose

Your decisions and interactions with the world are guided by a deep connection to your values.

Wayfinder's Core Curriculum guides students to **build self-understanding and make responsible, values-driven choices.**

- Lessons are [aligned](#) with Common Career Technical Core Career-Ready Practices
